How to give First Job, First Check

1 Buy it with your email

Use your own email at checkout so the receipt and kit come to you. Open the download email and save the ZIP now. The link in that email is good for 30 days from purchase.

2 Make it personal

Write a message in the gift note, then save a copy to send or print. Tell them where to find the kit.

Open the printable gift note

3 Give them the kit

Giving it within 30 days? On the Thank You page, press and hold **Download** (right-click on a computer). Copy the link and send it privately. Ask them to save the kit before the link expires.

Giving it later? Put the saved ZIP in Google Drive, iCloud Drive, or OneDrive. Choose **Share** and limit access to the recipient's email. In person, use AirDrop or Quick Share.

A message you can borrow

"I've seen how good you are at what you do. Here's a little help getting your own business started. I'm rooting for you."
